Gaur (Vidhyapatinagar), Rautahat, Nepal

PROFILE

I'm a full stack web developer with 3 years of development experience.

EXPERIENCE

Backend Web Developer — 2017-Present

I started backend web development in 2017 and till now I'm giving continuity to it. Apart from that, learning new things while working is my habitual way to perform work. In this way, I'm always concerned to learn new technologies while applying it to real-life projects. All the projects related to backend development are linked to my portfolio website. Some of my projects are:

- E-commerce store backend (For own startup)

- Blog website (Including Admin Panel)

- Online photo upload (CMS)

Frontend Web Developer — 2019-Present

- I've developed UI for my E-commerce

- I've developed Landing Pages targeting businesses like: hotels, companies.

TECHNOLOGIES

HTML5, CSS3, Javascript, PHP, MySQL, jQuery, VueJs, OOP(Object Oriented Programming) using PHP, PDO, Composer, Design Patterns, GIT, Python(Core)

Languages

English- Proficient

Nepali - Native/Mother tongue

Hindi - Intermediate
